AgriPark Vision

Support, facilitate and grow the nations agriculture sector and drive sustainability in the food bowl of Australia.

Imperatives

Support for innovation

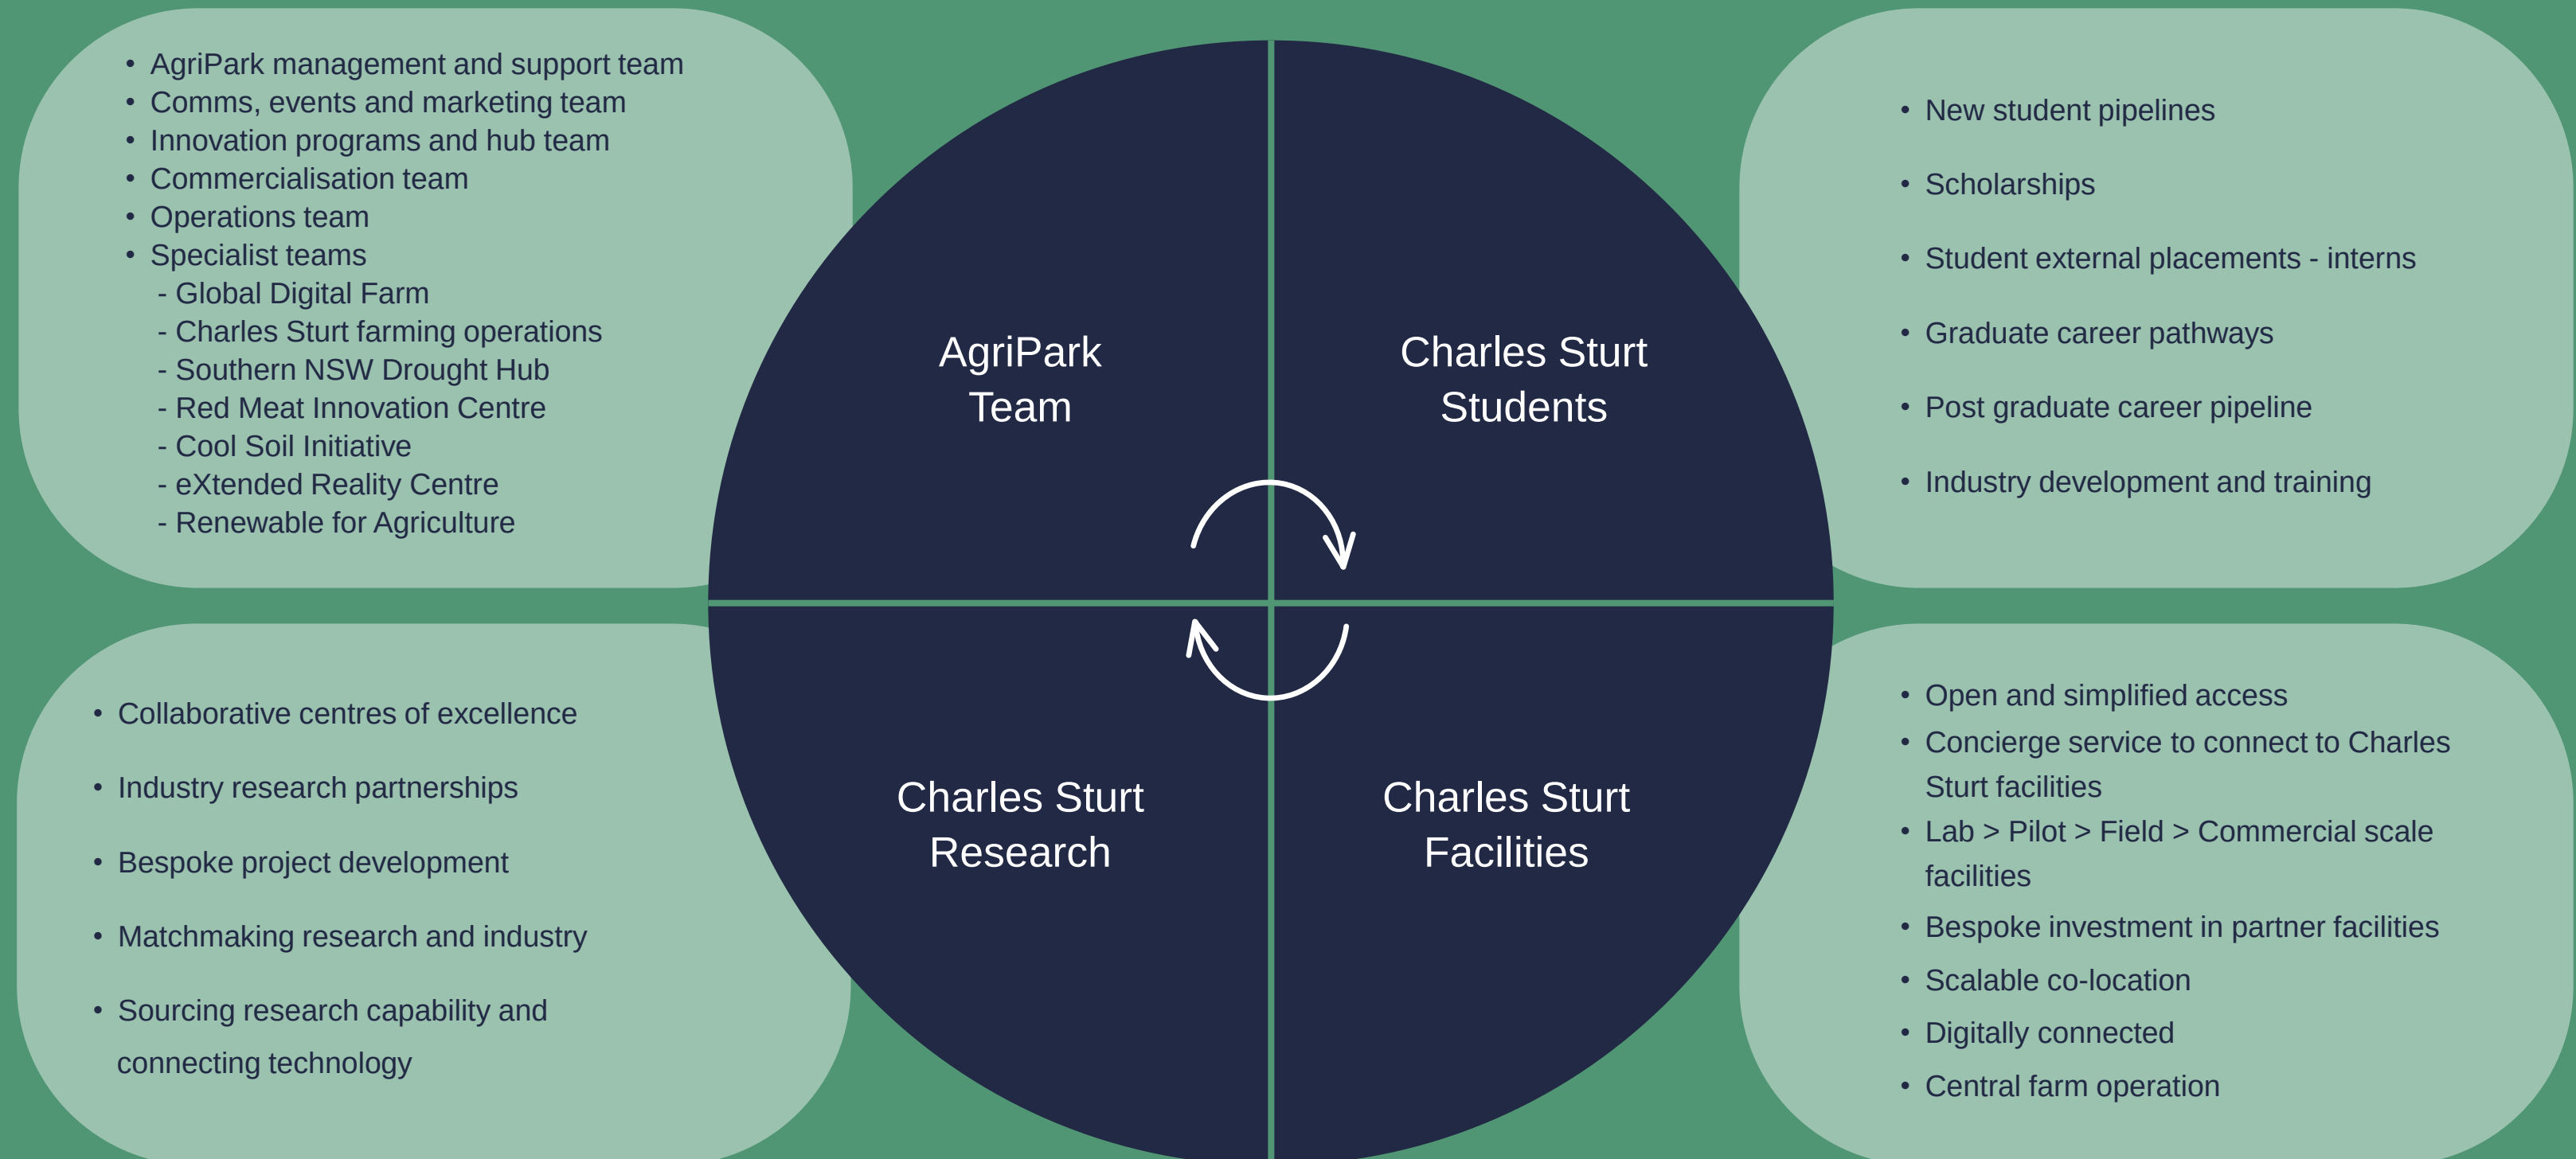

New ways of thinking

Curated collaboration

Where does AgriPark fit?

Precinct Development

Phase 1: AgriPark Interim Precinct

- Industry hub (Innovation Office)
- Showcase facilities

Phase 2: Digital Precinct

- \$45M Transgrid training centre
- GDF national training centre
- Vineyard of the future

Phase 3: AgriPark Precinct

- 3-5 year plan
- Custom build - new and existing partners

Phase 2: Digital Precinct

- \$45M TransGrid and Global Digital Farm National Training Centre planning underway
- First facility in Australia for hand-on training in digital agriculture
- Negotiations for sale of 16Ha to H&P underway including John Deere agreement
- Site for the Vineyard of the Future

Phase 3: AgriPark Precinct

- 3-5 year plan for AgriPark precinct new build
- AgriFutures Australia anchor tenant
- Customer build for new and existing partners
- Shared facilities

Industry Hubs

- Collaborative spaces for delivery of innovation programs and co-working spaces for ecosystem partners
- Wagga Wagga (pictured)
- Port Macquarie

Key Programs

Program 1: Introduction to Innovation and Program 2: Innovation to Impact

- Equipping our communities with knowledge and skills to innovate with impact
- Delivery partner: Cicada Innovation
- Pilot program launching in December 2023 - first cohort Charles Sturt researchers

Indigenous Entrepreneur Program

- Unique program in Australia focusing on supporting indigenous startups from idea to scale-up
- Cohort 2 kick-off boot camp held in November 2023
- 11 participants in cohort 2

Key Programs

Startup Year 2024

- Government funded initiative - Phase 1 EOI submitted and accepted
- Phase 2 EOI in progress
- Pre-emptive program planning underway

Ready to Launch Program 2024

- Existing 10 week program that will continue to run in 2024
- Program builds upon Introduction to Innovation scheme and allows innovators to validate their concepts

One-CSU Thematics

AgriPark has engaged The Growth Drivers to facilitate development of Charles Sturt's One-CSU strategies around our key research themes:

- Wine Industry
- Renewables in Agriculture
- Biosecurity
- Circular Economy
- Red Meat Industry

Our first Wine Industry workshop held in April 2023 brought research, academia and industry together to plan the future of wine science at Charles Sturt and ensure industry alignment.

Our One-CSU Renewables in Agriculture strategy kicked off in October 2023.

Business Units

Innovate at Charles Sturt
